

COP23 Side Event

Low-carbon Transport: G20 on track?

With reference to the "Verkehrswende" - the decarbonisation of transport in Germany – the “Low-carbon Transport: G20 on track?” event presents an analysis of the level of ambition regarding CO₂ mitigation of G20 countries in the transport sector. It starts with pointing out highlights of a recent analysis of transport in NDCs, presents key drivers for transport sector performance and illustrates existing low-carbon targets, strategies and policies in the transport sector in G20 countries. The discussion will put this into perspective of the Paris Agreement and reflect what the current status means for NDC implementation and revision in the transport sector.

Date: Wednesday, 8 November 2017, 14:30 – 16:00
Refreshments from 14:00

Location: German Pavilion, Bonn Zone

Moderation by Daniel Bongardt, Senior Advisor of Transport and Climate Change, GIZ

Agenda: Low-carbon Transport: G20 on track?	
14:00 – 14:30	Coffee & Refreshments
14:30 – 14:45	Opening remarks <i>Jochen Flasbarth, State Secretary, BMUB</i>
14:45 – 15:15	Transport climate strategies in G20 – are we on track? <i>Christian Hochfeld, Executive Director, Agora Verkehrswende</i>
15:15 – 15:55	Panel Discussion: What is missing to get on track to decarbonised transport? <i>Christian Hochfeld, Executive Director, Agora Verkehrswende</i> <i>Franz Drees-Gross, Director, Transport and ICT Global Practice, World Bank</i> <i>Rana Adib, Research Coordinator, REN21</i> <i>Vera Scholz, Director, Climate Change, Environment and Infrastructure, GIZ</i> <i>Holger Dalkmann, Co-Chair, Partnership on Sustainable Low-Carbon Transport (SLoCaT)</i>
15:55 – 16:00	Closing remarks
